

AMENDMENTS TO THE SPECIFICATION

Please amend the paragraph beginning on page 2, line 21 as follows:

In order to make both of the width of the seat 2 or arm rest and the width of the passage 5 as larger as possible, it is preferable to move the level of a floor 3 to around a vertical directional central position of an approximate circular cross sectional shape of the body 1. But if the level of the floor 3 is lifted too much ~~lifted~~, the space between the floor 3 and a ceiling of the body 1 will become too narrow and there is a limitation to do so.

Please amend the paragraph beginning on page 3, line 18 as follows:

| ~~DISCLOSURE~~ SUMMARY OF THE INVENTION

Please amend the paragraph beginning on page 10, line 12 as follows:

| ~~BEST MODE FOR CARRYING OUT~~ DETAILED DESCRIPTION OF THE INVENTION
